TOOLS FOR THE STONE INDUSTRY

Tool Range is a supplier of tools and equipments to the stone, glass and construction industries. Tool Range provides top-quality equipments to the Australian market. With the focus on customer satisfaction, we take pride in providing our clients with a vast selection of quality products at reasonable prices. We are also committed to sourcing, developing and distributing the most innovative, cost-effective tools from the world's leading manufacturers and offer the best service to our customers. We stock some of the world's most trusted brands, such as Aardwolf, Fixtec, Royal & Woosuk.

DIAMOND TOOLS

GRINDING

FIXTEC DIAMOND CUTTING DISC 110 X 20MM

Long life and stable performance. Characterized by high working efficiency and using easily. Mainly used for granite, marble and other similar material as concrete, bricks, pavers, tiles...

Fixtec Diamond Cutting Blade 110 x 20mm
UNIVERSAL / TILES..... **\$.25** INC GST

WOOSUK 5" ELECTROPLATED BLADE-BORE 22.23

The advanced electroplated bond provides excellent performance without chipping and cracking. Designed with extra high diamond contents for clean and smooth cutting. The Electroplated Blade-Bore 22.23 for ensures precise cutting on all kinds of marbles and other soft stones allow longer life and smoother cut with increased speed and stability.

Woosuk EP Blade 5.0"..... **\$ 54** INC GST

WOOSUK 5" ELECTROPLATED VANITY BLADE-M14

The electroplated vanity blade is designed for clean cutting and side grinding on marble and engineered stone. Aluminium flange attached.

Woosuk EP Vanity Disk 125mm..... **\$ 100** INC GST

5" ELECTROPLATED CONTOUR BLADE

Electroplated Contour Blade is designed specifically for cutting marble and soft stone sinkholes and other curve cutting applications in matter & softstone. Double-sided Electroplated diamond protection pads allow the blade to cut a curved area cleanly, accurately and safely with ultimate control.

Electroplated Contour Blade 5.0" **\$100 INC GST**

4" NEW TURBO GRINDING CUP WHEEL-M 14

New turbo grinding cup wheels are balanced to eliminate vibration and chipping with a new turbo segment design and diamonds while it is performing. These wheels smooth out the scratches left on any material effectively.

4" New Turbo Grinding Cup **\$154 INC GST**
#Coarse - #Medium

4" BRAZED GRINDING CUP WHEEL-M 14

Rapid material removal by the 4" brazed grinding cup wheel makes an excellent choice for an all-around grinding tool for all stones. This cup wheel can be used under the wet or dry condition. The grinding action is extremely smooth, reducing fatigue and jumping.

Woosuk 4" Brazed Grinding Cup #30..... **\$120 INC GST**
Woosuk 4" Brazed Grinding Cup #50 - #100.... **\$112 INC GST**

ANCHOR BIT DRILL

Anchor bits are the perfect bits for securing countertops and under-catter counter basins. They are available in various size, and will drill approximately 50 holes.

D5 mm Bit Drill, D6 mm Shank..... **\$46 INC GST**
D6 mm Bit Drill, D6 mm Shank..... **\$54 INC GST**
D5 mm Bit Drill, D10 mm Shank..... **\$49 INC GST**
D6 mm Bit Drill, D10 mm Shank..... **\$56 INC GST**
D10 mm Bit Drill, D10mm Shank..... **\$60 INC GST**

SINTERED DRY/WET CORE DRILL BIT-M 14

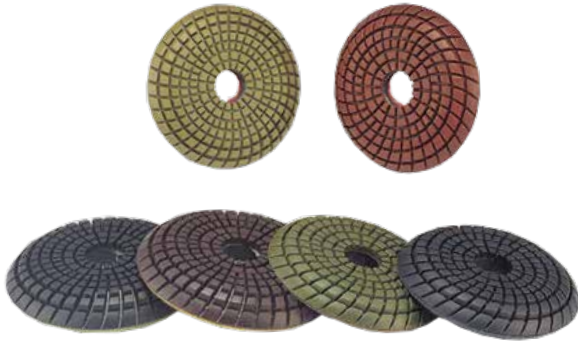

These sintered core drills present the fastest chip-free cutting on most materials with fast debris removal under the dry or wet condition. The precision drilling actualizes the exact needs of users.

Various diameter and length are available upon customers' request.

Woosuk Blazed sided D25XL70..... **\$112 INC GST**

DRILL STANDS

AARDWOLF PORTABLE AIR DRILL MACHINE

\$1,245 INC GST

The Aardwolf Portable Air Drilling Machine is a lightweight, versatile drill made of aluminium to reduce weight, and features an integrated vacuum base making it almost instantaneous to set up with no need for anchoring or clamping. The Aardwolf Air Drilling Machine quickly attaches to both smooth and rough flat surfaces once the vacuum is applied. This drilling machine is suitable for use on vertical and horizontal surfaces whether the surface is cement, stone, glass or metal. The vacuum base provides stability.

DRILLING BORE SIZE 50 MM MAX. SPEED 1200 RPM

AARDWOLF DRILL STAND WITH VACUUM BASE

\$ 825 INC GST

A Drill Stand with a Vacuum Base is preferable to a hand drill when the location and orientation of the hole must be controlled accurately. The Aardwolf Drill Stand with Vacuum Base is a lightweight, versatile drill stand and features a powerful integrated vacuum base making it almost instantaneous to set up with no need for anchoring or clamping. The Aardwolf Drill Stand with Vacuum Base quickly attaches to both smooth and rough flat surfaces once the vacuum is applied. The vacuum base provides exceptional stability.

DRILLING BORE SIZE 60 MM VACUUM BASE DIMENSION 200 X 205 MM

AARDWOLF ELECTRIC ANCHOR MACHINE

\$1,045 INC GST

The Electric Anchor Machine manufactured by Aardwolf Industries LLC features electric grinders and a vacuum-powered base. It is used to cut T-slots in the back of vanity tops for the attachment of anchor bolts used in the under-counter sink or architectural facing systems. Two separate vacuum zones on the base can be turned on or off, enabling the machine to be used near edges.

COLLET DIAMETER 6 MM NO-LOAD SPEED 30 000 RPM

AARDWOLF PNEUMATIC ANCHOR MACHINE

\$ 965 INC GST

The Pneumatic Anchor Machine manufactured by Aardwolf Industries LLC features pneumatic grinders and a vacuum-powered base. It is used to cut T-slots in the back of vanity tops for the attachment of anchor bolts used in the under-counter sink or architectural facing systems. Two separate vacuum zones on the base can be turned on or off, enabling the machine to be used near edges.

COLLET DIAMETER 6 MM NO-LOAD SPEED 25 000 RPM

SLAB LIFTER

The Aardwolf Slab Lifter AL20A is a versatile lifting device with a wide jaw design, making it well suited for delicate material such as porcelain, glass, marble, etc. This lifting clamp leaves no marks on delicate materials while at the same time suitable for handling heavy slabs such as thick granite. Furthermore, this clamp is equipped with a new innovated auto lock and unlock the mechanism, allowing the clamp to automatically grip and release slabs.

FORKLIFT JIBS

Aardwolf Forklift Jibs are made from high-grade Australian rectangular tube steel, with a minimum yield strength of 450 Mpa, which ensures strength, reliability and safety. The Aardwolf swivel shackles are forged from high strength aluminium (aircraft grade) and are specifically designed for Aardwolf's range of lifting clamps. Aardwolf slab lifting clamps are the most widely used slab lifting clamp in the world today, with a WLL of 1200 Kgs.

AARDWOLF® SCAN TO SLAB RACK CALCULATOR

DEMOUNTABLE FRAME

Ideal for transporting material within the factory and on building sites. Rubber is provided on the frame surfaces for maximum protection. Heavy-duty wheels allow easy manoeuvring of fully-loaded carts in the workshop and on the construction site. A cost-saving version which is ideal for transporting sheet material such as stone slabs and glasses within the factory and on building sites. It also features four heavy-duty wheels (two solid wheels and two lockable swivel wheels), allowing easy manoeuvring of fully-loaded carts in the workshop and on the construction site.

- Sturdy structure, designed to eliminate any risk of the slabs tipping over
- Slabs are placed on special rubber profiles and secured with 8 adjustable locking bars
- Eight locking bars per frame, mounted in slotted holes on the bottom.

TRANSPORT FRAME - TF SERIES

Designed to store and transport sheet material such as granite, marble, engineered stone, glass, natural stone countertop, and island pieces. The Aardwolf Transport Frames are the most versatile frames on the market. They are the quickest frames to assemble and disassemble, with assembly time by one man taking approximately 5 minutes. Loaded frames can be moved around a factory or work site manually by one man. The fully loaded frame can be loaded on and offloaded from trucks by a forklift.

- Sturdy and safe structure, designed to eliminate any risk of slabs tipping over.
- Load bearing surfaces are topped with rubber to prevent scratches and damage to goods being transported.
- It contains two lifting eyes at the top frame for lifting frames on and off trucks with a crane.
- Handles are located at the end of "A" frames.
- Wheels with brakes to ensure safety in operation.
- Four locking bars per frame mounted in slotted holes on the bottom.
- Powder-coated finish ensures an aesthetic feature as well as durability of the product.

Option: Frames can be hot galvanized finished upon request.

WORKSHOP TOOLS

AARDWOLF® ANTI-BREAKAGE BAR

AARDWOLF® LAMINATION RAIL CLAMP

The Lamination Rail Clamp has a unique purpose and function in the marble and granite workshops. Designed for laminating edge strips, the Lamination Rail Clamp cuts clamping time by 75% or more, increases production and improves the quality of joints. The Lamination Rail Clamp is now an indispensable tool for the professional fabricator. Fabricators who have used the Lamination Rail Clamp never want to go back to the days of C-clamps again.

BATTERY JOINT SETTER \$2,110 INC GST

The Joint Setter is designed to close gaps between two pieces of slabs and to pull them together. This device works well on stone and glass with non-porous surfaces. It can be quickly closed or opened by simply moving the roller nut with the palm of your hand. The two vacuum bases are aligned with precision steel guide axles. These axles are anchored on each side with the main axle and two sub axles. When the roller rotates, one vacuum base will move along two sub axles and pull two pieces of slabs together. One balance bar with two leveling knobs allows surfaces to be leveled precisely. With the electric-operated vacuum pump, an equal vacuum is maintained in both pads during the working process.

RATCHET SEAM SETTER \$420 INC GST

Positions countertops horizontally and vertically. Dual-action ratcheting handle allows horizontal adjustments to tighten or loosen joints. Also a very handy tool for joining/gluing coloured marble panels that have broken on a mud vein.

HAND VACUUM CUP LIFTERS

The Hand Vacuum Cup Lifters are made of strong durable aluminium together with an ergonomic handle with the capacity for any manual lift. It is rugged and dependable. It is an inexpensive way to improve efficiency. The Hand Vacuum Cup Lifters are suitable for all smooth non-porous surfaces. It features a flat vacuum pad and a lightweight structure.

STONE PANEL CARRIERS

\$ 195 INC GST

The Stone Panel Carrier with Cable is designed for lifting, carrying and moving sheets of building material that are large, unwieldy and heavy, such as panels of glass, granite, marble, plywood, particleboard, etc.

This device significantly reduces stress and the potential injuries to the fingers, wrists, and back. It also reduces physical fatigue.

ADHESIVES

ROYAL COLOR ENHANCER 250ML

\$30 INC GST

The Royal Color Enhancer is one size of the stone enhancers and sealers that revitalize and enhances the colour of natural stone surfaces. Use the 250 mL on your natural stone surfaces to give the stone a deep, rich appearance and protect the pores from absorbing potentially discolouring liquids that could stain the surface.

ROYAL COLOR ENHANCER FOR QUARTZ 250 ML

\$30 INC GST

The Royal Color Enhancer for Quartz is a surface treatment that can be used on a variety of engineered stone surfaces to enhance the colour of the stone. It can be used on multiple finishes and protects the stone from an array of harmful substances. Additionally, it is great for concealing minor scratches on the surface of engineered stone materials.

ROYAL GRANITE COBWEBS REMOVER BLACK 250 ML

\$20 INC GST

The Royal Granite Cobwebs Remover Black is applied to polished granite to hide, disguise, or eliminate “webbing” and micro-fissures. The Royal Remover Black 250mL can be used on all colours of polished stone but works especially well on medium to light-coloured stone. Drying time: 5 minutes

ROYAL GRANITE COBWEBS REMOVER TRANSPARENT 250 ML

\$17 INC GST

The Royal Granite Cobwebs Remover Transparent is applied to polished granite to hide, disguise, or eliminate “webbing” and micro-fissures. This product can be used on all colours of polished stone but works especially well on medium to light-coloured stone. Drying time: 5 minutes

ROYAL H20PROOF 250 ML

\$14 INC GST

Our most popular granite sealer. The Royal H20proof is a penetrating sealer that prevents liquids (stains) from penetrating into the material through its micro-porosities. The Royal H20proof is both waterproof and oil proof. Excellent for granite, and similar stones. It is especially effective on polished granite and polished marbles. The Royal H20proof 250mL allows the stone to breathe to maintain its natural characteristics. The Royal H20proof 250mL may be used both indoors and outdoors. It does not change the colour of the stone. The Royal H20proof operates on the surface of materials.

ROYAL BLACK TREATMENT B 1 LITRE

\$25 INC GST

The Royal Black Treatment B is a very strong, concentrated black colour enhancer designed specifically to eliminate the defects of black granite. Its application darkens the surface of the material and makes it more unified in colour and consistency. Quick-drying. Maintain the rich colour by applying Royal uni black 2. Treats approximately 215-323 sq. ft.

ROYAL SELF POLISH VARNISH 1 LITRE

\$63 INC GST

Excellent for chiseled edges and the underside of overhangs! This product is a self polish varnish used to create a polished effect on both smooth and raw materials such as marble, granite, onyx, and agglomerates. The Royal Self Polish Varnish forms a hard anti-scratch film on the surface that is extremely durable. It may be used on both countertops and floor applications. It is UV stable and does not yellow over time. It may be used for both indoor and outdoor applications.

ROYAL STONE SOL WAX BLACK 1 LITRE

\$29 INC GST

The Royal Stone Sol Wax Black 1L is used to increase the polishing effect on onyxes, marble, natural stones, granite, agglomerates, terrazzo. Also, it is used to brighten up a lost polish. The application may increase the polish from 5-6 to 15-16 points of gloss. This product is complete without solvents which contain trichloroethylene, which may cause dangerous irreversible effects to humans. Royal solid wax is a result of special waxes melted through solvents that allow a high penetration level on treated material leading to a long-lasting effect.

ROYAL STONE SOL WAX TRANSPARENT 1 LITRE

\$25 INC GST

This product is complete without solvents which contain trichloroethylene, which may cause dangerous irreversible effects to humans. Royal solid wax is a result of special waxes melted through solvents that allow a high penetration level on treated material leading to a long-lasting effect.

ROYAL VERTICAL S GLUE TRANSPARENT 1 LITRE

\$26 INC GST

The Royal Vertical S Glue Transparent 1L is a high viscosity polyester adhesive used to vertically or horizontally repair, rebuild, bond, and fill. The Royal Vertical S Glue Transparent 1L is very smooth in consistency, easy to stir, and spread and will cure shiny.

It is very polishable and colours easily to match the stone. It cures fast and bonds extremely strong. Cures in lower temperatures. Not suitable for temperatures below 32°. Recommended for interior use. The Royal Vertical S Glue Transparent 1L is Italian made premium knife grade glue that offers many outstanding characteristics that fabricators look for in a knife grade glue.

ROYAL RUST CLEANER 1 LITRE \$25 INC GST

Water-based professional rust remover, for marble (unpolished), stone and granite. Is a specific product to remove every kind of rust residue or stain from the treated surface.

ROYAL SELF POLISH SPRAY 500 ML \$41 INC GST

The Royal Self Polish Spray is a liquid aerosol. Apply to a non-polished surface that was missed during fabrication or too hard to reach or polish. The varnish forms a film or coating on the surface that creates a polished look. Completely dry in 15 minutes. It cannot be walked on. Great for job site touch-ups.

ROYAL FRANKFURT BRUSH \$109 INC GST

Royal diamond brushes can be used on existing tools that are used every day in fabrications shops. The Royal Frankfurt Brush removes the “softer” material in the stone to create a beautiful texture while enhancing the natural colour in the stone. The Royal Frankfurt Brush comes in 36, 46, and 60 grit. Made with many narrow bristles, the Royal Frankfurt Brush removes material more aggressively and cuts deeper to create a nice antique look
